

UPSC Prelims 2026 GS1 + CSAT Combined Structured Dossier

Generated: 2026-05-14 23:16

Combined from the supplied closest-paper model, locked dossier, granular Level-2 dossier, and unified ranking. Repeated study/trap/checklist content is merged per subtopic.

Evidence Boundary and Score Math

This is a study dossier, not a guarantee of exact UPSC questions or a promised score. It locks high-yield subtopics, repeated traps, likely formats, score math, and revision order.

GS Paper I: 100 questions, 200 marks. Correct = +2; wrong = -0.6667; blank = 0. CSAT Paper II: 80 questions, 200 marks. Correct = +2.5; wrong = -0.8333; blank = 0. CSAT is qualifying at 33%, i.e. 66/200, but this dossier targets 100+ safety.

GS 140+ is an 85-95 attempt strategy with 81-88% accuracy. CSAT 100+ requires finishing high-accuracy RC, reasoning, and direct arithmetic before calculation-heavy questions.

Unified Ranking

Rank	Signal	Subtopic	Score	Fresh	Pred	Qs
1	L1 highest potential	economy_fiscal_budget_taxation - Budget, taxation, GST, fiscal policy	88.9	1 / A++ PYQ+Coaching convergence	3 / Tier A	5-7

Global Topic Closeout Protocol

- Write five one-line facts from memory.
- Write three false statements UPSC may create.
- Solve five PYQ/MCQ items from the subtopic and classify every error.
- If two errors have the same trap label, repeat the subtopic before moving.

GS1 Consolidated Topic Cards

1. Budget, taxation, GST, fiscal policy (economy_fiscal_budget_taxation)

Signal	Unified score	Fresh rank/band	Prediction rank/tier	Expected Qs
LOCK-1 Same Signal: highest potential	88.9	1 / A++ PYQ+Coaching convergence	3 / Tier A	5-7

Source Spine and Hooks

- Budget 2025-26 + Economic Survey 2024-25 + Ramesh Singh Ch 17-19
- Public finance, fiscal deficit, FRBM, Direct Tax Code, GST
- NCERT XII Macroeconomics Ch 5 Government Budget.
- Budget 2025-26 (Section 87A 12L; capex outlay; fiscal deficit 4.4%); Income Tax Act 2025 effective Apr 2026; GST 2.0 Sep 2025.

What To Lock

- Budget receipts vs expenditure, revenue vs capital, fiscal deficit, revenue deficit, primary deficit.
- GST Council, compensation, rate rationalisation, inverted duty structure, sin/de-merit taxation logic.
- Direct tax changes, exemptions/rebates, effective dates, capex vs revenue spending, FRBM glide path.
- Economic Survey boxes: fiscal consolidation, quality of expenditure, subsidies, transfers, social sector outlays.

Closest UPSC Stem Patterns

Likely cluster	Likely UPSC stem	Exact fields to lock	Main trap
Budget 2025-26 numbers and fiscal terms	3-statement how-many	BE/RE/actual, receipts/expenditure, fiscal deficit vs revenue deficit	number/status swap
Income Tax Act 2025 / GST 2.0	body-law-effective date	enacted vs effective date; GST Council vs Parliament	date/status + institution trap
FRBM and capex quality	direct conceptual	capex, revenue expenditure, grants creating assets	definition exception

Trap Lock / Elimination Rules

- Fiscal deficit is not total government borrowing in a loose sense; match exact formula.
- Revenue expenditure can create assets through grants-in-aid; do not over-apply textbook shortcuts.
- GST Council recommendation/legal effect questions often test institution vs binding force.
- Budget announcements may be proposed, notified, enacted, or effective on different dates.

Level-2 Drill Cards

Card	Likely stem	Trap inserted	Verify before marking	Mastery test
1	Consider the following statements about Budget, taxation, GST, fiscal policy.	date/status swap	exact date, notified/enacted/effective status	Explain why one attractive option is false in 20 seconds.
2	How many of the following four statements about Budget, taxation, GST, fiscal policy are correct?	institution/body swap	which body has the power and legal basis	Explain why one attractive option is false in 20 seconds.
3	Match the following pairs related to Budget, taxation, GST, fiscal policy.	scope exception	one exception, exclusion or limiting word	Explain why one attractive option is false in 20 seconds.

2. Climate, UNFCCC, Paris, carbon markets (env_climate_unfccc_paris)

Signal	Unified score	Fresh rank/band	Prediction rank/tier	Expected Qs
LOCK-1 Same Signal: highest potential	87.9	4 / A++ PYQ+Coaching convergence	7 / Tier A	5-7

Source Spine and Hooks

- Shankar IAS Environment + UNFCCC website summaries
- UNFCCC; Kyoto; Paris; Article 6; Bonn meetings; Conference of Parties
- n/a.
- COP30 Belem Nov 2025 outcomes; NDC 3.0; Climate finance \$1.3T NCQG follow-on; carbon market rules.

What To Lock

- UNFCCC, Kyoto Protocol, Paris Agreement, NDC, global stocktake, loss and damage, carbon markets.
- Article 6 mechanisms, voluntary carbon markets, carbon credit trading, CBAM logic.
- India's climate targets: non-fossil capacity, emissions intensity, net-zero 2070, LiFE.
- COP outcomes, adaptation finance, climate funds, methane/coal/renewable pledges.

Closest UPSC Stem Patterns

Likely cluster	Likely UPSC stem	Exact fields to lock	Main trap
Paris Agreement and NDC 3.0	4-statement how-many	NDC, global stocktake, net-zero, emissions intensity	target-year swap
Article 6 carbon markets / CCTS	pair matching	carbon credit, offset, tax, trading scheme	definition overlap
COP30/NCQG/loss and damage	institution-fund-purpose	UNFCCC mechanism vs fund vs pledge	body-purpose swap

Trap Lock / Elimination Rules

- Convention vs protocol vs agreement membership and legal force.
- NDC is nationally determined; not externally assigned quota.
- Net-zero year, intensity target, installed-capacity target are different metrics.
- Carbon sink, carbon credit, carbon offset and carbon tax are not synonyms.

Level-2 Drill Cards

Card	Likely stem	Trap inserted	Verify before marking	Mastery test
16	Consider the following statements about Climate, UNFCCC, Paris, carbon markets.	date/status swap	exact date, notified/enacted/effective status	Explain why one attractive option is false in 20 seconds.
17	How many of the following four statements about Climate, UNFCCC, Paris, carbon markets are correct?	institution/body swap	which body has the power and legal basis	Explain why one attractive option is false in 20 seconds.
18	Match the following pairs related to Climate, UNFCCC, Paris, carbon markets.	scope exception	one exception, exclusion or limiting word	Explain why one attractive option is false in 20 seconds.

3. Parliament, legislature, bills, committees (polity_parliament_legislature)

Signal	Unified score	Fresh rank/band	Prediction rank/tier	Expected Qs
LOCK-1 Same Signal: highest potential	87.8	6 / A++ PYQ+Coaching convergence	1 / Tier A	5-7

Source Spine and Hooks

- Laxmikanth - Indian Polity (7th ed)
- 21 Parliament; 22 Parliamentary Committees; 23 Parliamentary Forums; 24 Parliamentary Group
- NCERT XI Indian Constitution at Work Ch 5 Legislature.
- Bihar SIR; One Nation One Election; Waqf Amendment Act 2025; ECI tools; SC verdict on bills assent (Apr 2025).

What To Lock

- Parliament composition, sessions, quorum, devices, committees, privileges, anti-defection, money/finance bills.
- Ordinary bill vs money bill vs financial bills; joint sitting; Rajya Sabha special powers.
- Parliamentary committees: PAC, Estimates, COPU, DRSCs, Business Advisory, Rules, Privileges.
- Recent legislative current affairs: election laws, Waqf, ONOE debate, parliamentary procedure in news.

Closest UPSC Stem Patterns

Likely cluster	Likely UPSC stem	Exact fields to lock	Main trap
Money Bill / Financial Bill / Joint Sitting	3-statement	which bill permits RS amendment, joint sitting, speaker certification	category trap
Committees: PAC, Estimates, COPU, DRSC	match-the-following	chair, members, reports, function	body-function swap
Waqf / election / major 2025 legislation	current-static fusion	legislative procedure and constitutional limits	current hook distractor

Trap Lock / Elimination Rules

- Money Bill certification vs judicial review limits.
- Joint sitting does not apply to constitutional amendment bills and money bills.
- Rajya Sabha has special powers under Articles 249 and 312.
- Committee chairmanship/membership and report-laying body are often swapped.

Level-2 Drill Cards

Card	Likely stem	Trap inserted	Verify before marking	Mastery test
26	Consider the following statements about Parliament, legislature, bills, committees.	date/status swap	exact date, notified/enacted/effective status	Explain why one attractive option is false in 20 seconds.
27	How many of the following four statements about Parliament, legislature, bills, committees are correct?	institution/body swap	which body has the power and legal basis	Explain why one attractive option is false in 20 seconds.
28	Match the following pairs related to Parliament, legislature, bills, committees.	scope exception	one exception, exclusion or limiting word	Explain why one attractive option is false in 20 seconds.

4. AI, digital tech, semiconductors, cyber (sci_it_emerging_ai_iot_ar_vr)

Signal	Unified score	Fresh rank/band	Prediction rank/tier	Expected Qs
LOCK-1 Same Signal: highest potential	85.3	2 / A++ PYQ+Coaching convergence	4 / Tier A	5-7

Source Spine and Hooks

- Vision IAS PT 365 Sci-Tech + The Hindu Sci-Tech
- AI fundamentals; IoT; AR/VR; blockchain; quantum computing
- n/a.
- IndiaAI Mission GPU procurement; sovereign LLM Bhashini/Krutrim; National Quantum Mission; 6G; semiconductor missions Tata-PSMC Dholera.

What To Lock

- IndiaAI Mission, compute capacity, datasets, AI safety/governance, deepfake/election rules.
- Semiconductors: fabrication, OSAT/ATMP, design-linked incentives, critical minerals linkage.
- Cybersecurity: CERT-In, DPDP, encryption/hash/signature, ransomware, zero trust, quantum-safe crypto.
- 5G/6G, IoT, edge computing, cloud, blockchain, digital public infrastructure.

Closest UPSC Stem Patterns

Likely cluster	Likely UPSC stem	Exact fields to lock	Main trap
IndiaAI Mission / AIKosh / compute	scheme-component pair	compute, datasets, application initiative, safety/governance	component swap
Semiconductors / DLI / OSAT / fab	direct concept	fab vs ATMP/OSAT vs design	definition trap
Cybersecurity / DPDP / quantum-safe crypto	how-many correct	hashing, encryption, signature, consent/data fiduciary	technology-function swap

Trap Lock / Elimination Rules

- AI model/training/inference terms are interchanged.
- Blockchain is not always anonymous; immutability and consensus are the tested concepts.
- Quantum computing is not faster for every problem.
- Cyber terms: hashing is one-way; encryption is reversible with key; digital signature proves authenticity/integrity.

Level-2 Drill Cards

Card	Likely stem	Trap inserted	Verify before marking	Mastery test
6	Consider the following statements about AI, digital tech, semiconductors, cyber.	date/status swap	exact date, notified/enacted/effective status	Explain why one attractive option is false in 20 seconds.
7	How many of the following four statements about AI, digital tech, semiconductors, cyber are correct?	institution/body swap	which body has the power and legal basis	Explain why one attractive option is false in 20 seconds.
8	Match the following pairs related to AI, digital tech, semiconductors, cyber.	scope exception	one exception, exclusion or limiting word	Explain why one attractive option is false in 20 seconds.

5. RBI, banking, monetary policy (economy_monetary_rbi_money_market)

Signal	Unified score	Fresh rank/band	Prediction rank/tier	Expected Qs
LOCK-1 Same Signal: highest potential	84.1	3 / A++ PYQ+Coaching convergence	5 / Tier A	5-7

Source Spine and Hooks

- Ramesh Singh - Indian Economy (12th ed) Ch 7-9
- Monetary policy; RBI structure; money market; LAF; OMO; CRR/SLR; MPC; bond market; G-sec
- NCERT XII Macroeconomics Ch 3 Money and Banking.
- RBI MPC Apr 2025-Apr 2026 (rate cuts cumulative); GST 2.0; UPI cross-border; CBDC e-rupee; Banking Laws Amendment 2025.

What To Lock

- RBI MPC, repo, SDF, MSF, CRR, SLR, LAF, OMO, VRRR/VRR, WMA, G-sec and T-bill basics.
- Inflation targeting framework: CPI target, tolerance band, MPC accountability, transmission channels.
- Banking regulation: scheduled banks, NBFCs, digital lending, deposit insurance, bank mergers/amendments.
- Money market instruments: call money, CD, CP, T-bills, repo, tri-party repo.

Closest UPSC Stem Patterns

Likely cluster	Likely UPSC stem	Exact fields to lock	Main trap
Repo-SDF-MSF corridor and MPC	rate/order statement	repo, SDF, MSF, CRR, SLR, LAF	corridor order swap
Banking Laws Amendment / RBI role	body-power statement	RBI, scheduled banks, nominees, cooperative/banking regulation	institution trap
CBDC/UPI/digital lending	application-feature pair	settlement, wallet/account, offline/programmable CBDC	feature exaggeration

Trap Lock / Elimination Rules

- Repo/SDF/MSF corridor order gets swapped in options.
- CRR has no interest payment; SLR assets can earn returns.
- MPC decides policy rate, not every liquidity instrument.

- RBI is banker to governments, but legal powers differ between Central and State contexts.

Level-2 Drill Cards

Card	Likely stem	Trap inserted	Verify before marking	Mastery test
11	Consider the following statements about RBI, banking, monetary policy.	date/status swap	exact date, notified/enacted/effective status	Explain why one attractive option is false in 20 seconds.
12	How many of the following four statements about RBI, banking, monetary policy are correct?	institution/body swap	which body has the power and legal basis	Explain why one attractive option is false in 20 seconds.
13	Match the following pairs related to RBI, banking, monetary policy.	scope exception	one exception, exclusion or limiting word	Explain why one attractive option is false in 20 seconds.

6. Ancient India, IVC, Buddhism, Vedic (history_ancient_indus_vedic)

Signal	Unified score	Fresh rank/band	Prediction rank/tier	Expected Qs
LOCK-1 Same Signal: highest potential	78.0	7 / A++ PYQ+Coaching convergence	2 / Tier A	5-7

Source Spine and Hooks

- RS Sharma - India's Ancient Past + NCERT XI Themes in Indian History Part I
- Indus Valley sites and decline; Vedic society; Mauryan; Gupta; post-Gupta regional kingdoms
- NCERT VI Our Past + XI Themes in Indian History Part I (full).
- Sinauli/Rakhigarhi/Vadnagar/Keeladi excavation news; Maratha Military Landscapes UNESCO.

What To Lock

- IVC sites and distinguishing finds; town planning, seals, trade, agriculture, decline debates.
- Vedic society/economy/polity/religion: early vs later Vedic distinctions.
- Buddhism/Jainism: councils, texts, doctrines, sects, patrons, symbols.
- Maurya-Gupta: administration, inscriptions, art, coins, literature, foreign accounts.

Closest UPSC Stem Patterns

Likely cluster	Likely UPSC stem	Exact fields to lock	Main trap
IVC site-find table	pair matching	Rakhigarhi, Dholavira, Lothal, Kalibangan, Banawali	site-find swap
Buddhism/Jainism councils/texts/doctrines	chronology/pair	council, patron, place, text/language	council-place swap
Vedic early vs later features	3-statement	sabha/samiti, iron, varna, pastoral/agriculture	period mixing

Trap Lock / Elimination Rules

- Site-find pairs are deliberately swapped.
- Early Vedic and later Vedic features are mixed.
- Buddhist/Jain councils, texts and languages are interchanged.
- Mauryan and Gupta art/administration claims are overgeneralised.

Level-2 Drill Cards

Card	Likely stem	Trap inserted	Verify before marking	Mastery test
31	Consider the following statements about Ancient India, IVC, Buddhism, Vedic.	date/status swap	exact date, notified/enacted/effective status	Explain why one attractive option is false in 20 seconds.
32	How many of the following four statements about Ancient India, IVC, Buddhism, Vedic are correct?	institution/body swap	which body has the power and legal basis	Explain why one attractive option is false in 20 seconds.
33	Match the following pairs related to Ancient India, IVC, Buddhism, Vedic.	scope exception	one exception, exclusion or limiting word	Explain why one attractive option is false in 20 seconds.

7. Climatology, monsoon, physical geography (geography_physical_climatology)

Signal	Unified score	Fresh rank/band	Prediction rank/tier	Expected Qs
LOCK-1 Same Signal: highest potential	77.0	5 / A++ PYQ+Coaching convergence	18 / Tier A	5-7

Source Spine and Hooks

- G C Leong - Certificate Physical and Human Geography
- Atmosphere; Climatic regions; Cyclones; Jet streams; Monsoon mechanism
- NCERT XI Fundamentals of Physical Geography Ch 8-13.
- La Nina/El Nino transition 2025-26; IOD; Cyclones Remal/Asna/Dana follow-on; cloud-seeding pilot Delhi Sep-Oct 2025.

What To Lock

- Atmosphere, pressure belts, winds, jet streams, monsoon mechanism, cyclones/anticyclones.
- ENSO, IOD, MJO, Western Disturbances, ITCZ, tropical/extratropical cyclones.
- Ocean currents, climatic regions, rainfall distribution, local winds.
- India monsoon updates, cyclones in news, heatwaves/cloudbursts, climate attribution basics.

Closest UPSC Stem Patterns

Likely cluster	Likely UPSC stem	Exact fields to lock	Main trap
ENSO/IOD/MJO/monsoon	cause-effect statements	El Nino/La Nina, positive IOD, ITCZ, jet streams	absolute-causation trap
Cyclones and pressure systems	feature comparison	tropical vs extratropical, rotation, eye, storm surge	hemisphere/structure swap
Winds/ocean currents/climatic regions	map statement	direction, warm/cold current, local winds	map-direction trap

Trap Lock / Elimination Rules

- Wind direction is named from where it comes, not where it goes.
- Cyclone rotation differs by hemisphere.
- El Nino, La Nina, IOD and monsoon effects are probabilistic, not absolute.
- Tropical vs temperate cyclone structure is frequently mixed.

Level-2 Drill Cards

Card	Likely stem	Trap inserted	Verify before marking	Mastery test
21	Consider the following statements about Climatology, monsoon, physical geography.	date/status swap	exact date, notified/enacted/effective status	Explain why one attractive option is false in 20 seconds.
22	How many of the following four statements about Climatology, monsoon, physical geography are correct?	institution/body swap	which body has the power and legal basis	Explain why one attractive option is false in 20 seconds.
23	Match the following pairs related to Climatology, monsoon, physical geography.	scope exception	one exception, exclusion or limiting word	Explain why one attractive option is false in 20 seconds.

8. Modern history, freedom struggle (history_modern_freedom_struggle)

Signal	Unified score	Fresh rank/band	Prediction rank/tier	Expected Qs
LOCK-1 Same Signal: highest potential	74.9	8 / A++ PYQ+Coaching convergence	9 / Tier A	5-7

Source Spine and Hooks

- Spectrum - A Brief History of Modern India (Rajiv Ahir)
- 1857 Revolt to 1947; Special Sessions of INC; Gandhian movements; Revolutionary terrorism; Constituent Assembly
- NCERT XII Themes in Indian History Part III Ch 11-15.
- Birsa Munda 150 (Nov 2025); Sardar Patel 150; Guru Tegh Bahadur 350 Shaheedi (Nov 2025); Ahilyabai Holkar 300.

What To Lock

- 1857, socio-religious movements, Congress phases, Swadeshi, Home Rule, Gandhian movements, revolutionary activity.
- Acts and commissions: 1909, 1919, 1935, Cabinet Mission, Cripps, Wavell, Mountbatten.
- Peasant/tribal movements, newspapers, associations, women, regional leaders.
- Commemorative CA: birth/death anniversaries, UNESCO/heritage links, museum/archive news.

Closest UPSC Stem Patterns

Likely cluster	Likely UPSC stem	Exact fields to lock	Main trap
Congress sessions and movements	chronological order	Swadeshi, Home Rule, NCM, CDM, Quit India	timeline compression
Leaders-newspapers-organisations	pair matching	regional leaders, revolutionary groups, women, tribal/peasant movements	person-organisation swap
Acts/commissions 1909-1947	provision match	Morley-Minto, Montagu-Chelmsford, 1935 Act, Cabinet Mission	act-provision swap

Trap Lock / Elimination Rules

- Chronology of acts/movements/sessions gets compressed.
- Leader-organisation-newspaper pairs are swapped.
- Objectives and outcomes of movements are confused.
- Moderate/extremist/revolutionary labels are over-simplified.

Level-2 Drill Cards

Card	Likely stem	Trap inserted	Verify before marking	Mastery test
35	Consider the following statements about Modern history, freedom struggle.	date/status swap	exact date, notified/enacted/effective status	Explain why one attractive option is false in 20 seconds.
36	How many of the following four statements about Modern history, freedom struggle are correct?	institution/body swap	which body has the power and legal basis	Explain why one attractive option is false in 20 seconds.
37	Match the following pairs related to Modern history, freedom struggle.	scope exception	one exception, exclusion or limiting word	Explain why one attractive option is false in 20 seconds.

9. Judiciary, writs, SC verdicts (polity_judiciary_writ)

Signal	Unified score	Fresh rank/band	Prediction rank/tier	Expected Qs
LOCK-1 Same Signal: highest potential	67.8	9 / A++ PYQ+Coaching convergence	12 / Tier A	3-5

Source Spine and Hooks

- Laxmikanth Ch 26-31 + DD Basu Introduction Ch on Judiciary
- SC composition, jurisdiction, writs, judicial review; HCs; subordinate judiciary; tribunals
- NCERT XI Indian Constitution at Work Ch 6 Judiciary.
- Tamil Nadu Governor verdict; Article 143 Reference; Article 142 misuse hearings; Yashwant Varma in-house procedure.

What To Lock

- Supreme Court and High Court jurisdiction: original, appellate, advisory, writ, review/curative.
- Writs: habeas corpus, mandamus, certiorari, prohibition, quo warranto.
- Tribunals, judicial review, basic structure, PIL, appointment/removal of judges.
- Recent SC verdicts: reservation/sub-classification, minority institution, Governor/bills, federalism.

Closest UPSC Stem Patterns

Likely cluster	Likely UPSC stem	Exact fields to lock	Main trap
Five writs and real situations	writ-situation pair	habeas, mandamus, certiorari, prohibition, quo warranto	certiorari/prohibition swap

Likely cluster	Likely UPSC stem	Exact fields to lock	Main trap
SC vs HC jurisdiction	comparison statement	Article 32 vs 226, advisory, review, PIL	scope trap
2024-25 SC verdicts	case-principle pair	Governor bills, sub-classification, AMU minority, Article 142/143	principle overextension

Trap Lock / Elimination Rules

- High Court writ jurisdiction is wider than Supreme Court's Article 32 in subject scope.
- Certiorari quashes; prohibition prevents continuation.
- Mandamus cannot normally compel purely discretionary/private duty.
- Advisory opinion is not the same as ordinary binding appellate judgment.

Level-2 Drill Cards

Card	Likely stem	Trap inserted	Verify before marking	Mastery test
39	Consider the following statements about Judiciary, writs, SC verdicts.	date/status swap	exact date, notified/enacted/effective status	Explain why one attractive option is false in 20 seconds.
40	How many of the following four statements about Judiciary, writs, SC verdicts are correct?	institution/body swap	which body has the power and legal basis	Explain why one attractive option is false in 20 seconds.
41	Match the following pairs related to Judiciary, writs, SC verdicts.	scope exception	one exception, exclusion or limiting word	Explain why one attractive option is false in 20 seconds.

10. UN and multilateral organisations (ir_un_organisations)

Signal	Unified score	Fresh rank/band	Prediction rank/tier	Expected Qs
LOCK-1 Same Signal: highest potential	64.0	13 / A High-confidence hedge	6 / Tier A	5-7

Source Spine and Hooks

- Rajiv Sikri - Challenge and Strategy + Vision IAS PT 365 IR
- UN Charter, ECOSOC, UNGA, UNSC reform; Specialised agencies (WHO, FAO, ILO, IMF, WB, IAEA)
- NCERT XII Contemporary World Politics Ch 5 Cooperation and Security; Ch 6 International Organisations.
- UNGA 80 (Sep 2025); UNSC reform G4 push; UNFCCC COP30; WTO MC14 outlook.

What To Lock

- UNGA, UNSC, ECOSOC, ICJ, specialised agencies and major reports.
- IMF, World Bank, WTO, WHO, FAO, ILO, IAEA: headquarters, reports, mandates.
- India's role in UN reforms, peacekeeping, G20/BRICS/SCO/QUAD/I2U2 linkages.
- Places/conflicts in news with map location and bordering countries.

Closest UPSC Stem Patterns

Likely cluster	Likely UPSC stem	Exact fields to lock	Main trap
UN organs vs specialised agencies	organisation-category pair	UNGA, UNSC, ECOSOC, ICJ, WHO, FAO, ILO, IAEA	UN organ/specialised agency swap
Reports and headquarters	match-the-following	HDR, WDR, GHI-style indices, FAO/ILO/UNDP	report-body trap
UNSC reform / UNGA 80 / WTO MC14	current-static fusion	members, voting, mandates, reform groupings	membership trap

Trap Lock / Elimination Rules

- UN organ vs specialised agency status.
- Report-publishing body swaps.
- Membership categories: permanent, observer, associate, dialogue partner.
- Headquarters and founding treaties are low-effort traps.

Level-2 Drill Cards

Card	Likely stem	Trap inserted	Verify before marking	Mastery test
55	Consider the following statements about UN and multilateral organisations.	date/status swap	exact date, notified/enacted/effective status	Explain why one attractive option is false in 20 seconds.
56	How many of the following four statements about UN and multilateral organisations are correct?	institution/body swap	which body has the power and legal basis	Explain why one attractive option is false in 20 seconds.
57	Match the following pairs related to UN and multilateral organisations.	scope exception	one exception, exclusion or limiting word	Explain why one attractive option is false in 20 seconds.

11. President, Governor, executive (polity_executive_pres_governor)

Signal	Unified score	Fresh rank/band	Prediction rank/tier	Expected Qs
LOCK-1 Same Signal: highest potential	63.6	10 / A High-confidence hedge	23 / Tier A	3-5

Source Spine and Hooks

- Laxmikanth - Indian Polity Ch 17-20
- President; Vice-President; PM; Council of Ministers; Governor; State Council of Ministers
- NCERT XI Indian Constitution at Work Ch 4 Executive.
- Tamil Nadu Governor verdict (Apr 2025) on bill assent timeline; Article 143 Presidential Reference; VP Dhankhar resignation Jul 2025.

What To Lock

- President: election, impeachment, pardoning power, ordinance, emergency, discretionary areas.
- Governor: appointment, removal, bill assent/reservation, ordinance, discretionary powers, state executive.
- Council of Ministers, PM/CM, collective responsibility, Attorney General/Advocate General.
- SC verdicts on Governor/bill assent and President/Governor constitutional conduct.

Closest UPSC Stem Patterns

Likely cluster	Likely UPSC stem	Exact fields to lock	Main trap
Governor bill assent after TN verdict	3-statement	Article 200/201, reservation, reconsideration, timelines	discretion trap
President/Governor pardon power	comparison	death sentence, court martial, state law	power-holder swap
Ordinance and aid/advice	procedure statement	temporary force, reassembly, approval, ministerial advice	status trap

Trap Lock / Elimination Rules

- Governor's discretion is narrower than coaching folklore suggests; match constitutional text and SC doctrine.
- President's pardon power differs from Governor's under death sentence/court martial contexts.
- Ordinance has same force as law temporarily, but is not a permanent Act.
- Reservation for President and assent/withholding/reconsideration paths are confused.

Level-2 Drill Cards

Card	Likely stem	Trap inserted	Verify before marking	Mastery test
43	Consider the following statements about President, Governor, executive.	date/status swap	exact date, notified/enacted/effective status	Explain why one attractive option is false in 20 seconds.
44	How many of the following four statements about President, Governor, executive are correct?	institution/body swap	which body has the power and legal basis	Explain why one attractive option is false in 20 seconds.
45	Match the following pairs related to President, Governor, executive.	scope exception	one exception, exclusion or limiting word	Explain why one attractive option is false in 20 seconds.

12. Space, ISRO, satellites (sci_space_isro)

Signal	Unified score	Fresh rank/band	Prediction rank/tier	Expected Qs
LOCK-1 Same Signal: highest potential	62.9	12 / A High-confidence hedge	24 / Tier A	3-5

Source Spine and Hooks

- ISRO website + Vision IAS PT 365 Sci-Tech
- Launch vehicles; planetary missions; navigation; communication satellites
- n/a.
- NISAR Jul 2025; SpaDeX docking; Gaganyaan TV-D2; Chandrayaan-4 LUPEX; BAS module 1; Aditya-L1 results.

What To Lock

- ISRO missions: launch vehicle, orbit, payload, objective, partner agency.
- Remote sensing, navigation, communication satellites, SSLV/PSLV/GSLV/LVM3 basics.
- Space science: lunar/solar missions, re-entry, docking, human spaceflight, space debris.
- International space missions in news and basic orbital mechanics.

Closest UPSC Stem Patterns

Likely cluster	Likely UPSC stem	Exact fields to lock	Main trap
NISAR/SpaDeX/Gaganyaan/C handrayaan-4	mission-objective pair	payload, orbit, partner, launch vehicle	mission-objective swap
Satellite orbits and applications	direct concept	GEO/GSO/SSO/LEO, remote sensing/navigation/communication	orbit-function swap
Space debris/docking/re-entry	technology statement	orbital mechanics basics	overbroad claim

Trap Lock / Elimination Rules

- Orbit type is swapped with mission objective.
- Launch vehicle and payload are interchanged.
- Geostationary and geosynchronous are not always identical in inclination.
- Remote sensing and communication satellite functions are mixed.

Level-2 Drill Cards

- MPI 2025; PM-JAY senior citizen extension Oct 2024.

What To Lock

- PYQ recurrence, current-affairs trigger, static base chapter and one reliable coaching/current-affairs handout.
- Definitions, bodies, years, place-location pairs and scheme objectives.
- Direct application of static concepts to the 2025-26 news hook.

Trap Lock / Elimination Rules

- Date/status swap: proposed vs notified vs enacted vs operational.
- Institution/body swap: ministry, regulator, constitutional body or international organisation.
- Scope exception: all/only/always language in a statement that is partly true.

- Number/value swap: target, rank, year, percentage or threshold altered by one step.

Level-2 Drill Cards

Card	Likely stem	Trap inserted	Verify before marking	Mastery test
A	Consider the following statements about economy inclusive growth schemes.	source/status swap	definition, body, place, year and exception	Explain why one attractive option is false in 20 seconds.
A	How many of the following four statements about economy inclusive growth schemes are correct?	source/status swap	definition, body, place, year and exception	Explain why one attractive option is false in 20 seconds.
A	Match the following pairs related to economy inclusive growth schemes.	source/status swap	definition, body, place, year and exception	Explain why one attractive option is false in 20 seconds.

38. economy int org indices reports (economy_int_org_indices_reports)

Signal	Unified score	Fresh rank/band	Prediction rank/tier	Expected Qs
LOCK-2 Same Signal: study after LOCK-1	23.4	36 / C Watchlist	999 / -	1-3

Source Spine and Hooks

Cross-Subject Trap Catalogue

Trap	What to check before marking
Date/status	Bill introduced vs passed vs assented vs notified vs effective; treaty signed vs ratified vs entered into force.
Institution/body	Ministry, regulator, statutory body, constitutional body, UN organ, specialised agency and private platform are swapped.
Scope exception	A mostly true statement is made false by all/only/always/never or by excluding one exception.
Number/value	Rank, percentage, target year, rate, fund amount, article number or report year changed slightly.
Pair matching	Species-location, site-find, report-body, organisation-headquarters, mission-orbit, act-provision.
Chronology	Acts, movements, councils, COPs, missions, constitutional amendments and committees ordered incorrectly.
Definition overlap	Carbon credit vs carbon tax; repo vs reverse repo/SDF; prohibition vs certiorari; geostationary vs geosynchronous.
Map trap	River tributary, pass, strait, conflict zone, protected area, mineral state, island chain.
Current-static fusion	A current event is only a trigger; answer depends on static rule, body or geography.

CSAT Consolidated Model

Cluster	Expected Qs	Likely form	Main trap	Attempt target
RC central idea/inference/assumption	27-30	5-7 passages; central idea, inference, assumption, author view	outside knowledge and extreme-option traps	25-29 attempts, 20-24 correct
Number system/HCF/LCM/divisibility	8-10	unit digit, trailing zeros, remainders, divisibility, HCF/LCM	counting 5s without 2s; wrong modulus cycle	8-10 attempts, 7-9 correct
Syllogism/statement-conclusion	5-7	some/all/no, necessary conclusion, assumption	some does not mean some-not	5-7 attempts, 4-6 correct
Algebra/equations/inequality	3-5	linear equations, digit equations, inequalities	sign reversal and identity error	3-5 attempts, 3-4 correct
Percentage/P&L/SI-CI	4-6	successive %, discount, dishonest shopkeeper, base change	wrong base	4-6 attempts, 3-5 correct
Average/mixture/alligation	1-3	average, replacement, alligation cross	cheaper/dearer side reversal	1-3 attempts, 1-2 correct
TSD/time-work	2-4	relative speed, train/platform, work rate	unit and direction error	2-4 attempts, 2-3 correct
DI/data sufficiency	2-4	tables/charts, statement solo test	base/units and S1/S2-alone discipline	2-4 attempts, 2-3 correct
Blood relation/direction/ranking	4-7	family tree, turns, position/rank	direction from current facing	4-7 attempts, 3-5 correct
P&C/probability/calendar/clock/cubes	2-5	direct formula only	complex time sink	1-3 attempts, 1-2 correct

Execution	Attempts	Correct	Wrong	Score
Safe	55	38	17	80.8
Target	60	45	15	100.0
Strong	64	50	14	113.3
Excellent	68	54	14	123.3

Domain	Classifiable rows	Attempt target	Correct target	Must master
Quantitative Aptitude	181	28-32	21-24	Number system, percentage, algebra, average/mixture, TSD
Comprehension	208	25-29	20-23	Central idea, inference, assumption, tone
Logical Reasoning	92	12-16	9-12	Syllogism, statement-conclusion, relation/order
Data Interpretation	22	1-4	1-3	Tables, charts, data sufficiency

Archetype	Daily/weekly load	Max time	Failure symptom	Repair drill
Number system: divisibility/HCF-LCM	Daily	45-60 sec	Trailing zeros, divisibility and unit digit traps.	10 timed items, then rewrite the missed trap in one line
Percentage and profit-loss	Daily	45-60 sec	Wrong base and successive percentage traps.	10 timed items, then rewrite the missed trap in one line
Ratio/proportion/partnership/ages	3x/week	60-75 sec	Make common term in linked ratios; profit share is investment x time.	10 timed items, then rewrite the missed trap in one line

Archetype	Daily/weekly load	Max time	Failure symptom	Repair drill
Time-speed-distance/trains/boats	3x/week	75-90 sec	Relative speed direction and unit conversion.	10 timed items, then rewrite the missed trap in one line
Time-work/pipes	2x/week	75-90 sec	Use LCM work units; emptying pipe is negative rate.	10 timed items, then rewrite the missed trap in one line
Average/mixture/alligation	3x/week	60-75 sec	Average speed and alligation cross mapping.	10 timed items, then rewrite the missed trap in one line
Simple/compound interest	2x/week	60-75 sec	Half-yearly compounding changes rate and periods.	10 timed items, then rewrite the missed trap in one line
Algebra/equations/inequality	3x/week	75-90 sec	Sign reversal and identity errors.	10 timed items, then rewrite the missed trap in one line
Permutation/combination/probability	2x/week	90 sec	Select vs arrange, at-least-one complement.	10 timed items, then rewrite the missed trap in one line
Mensuration	1x/week	90 sec	Slant height vs height; TSA/CSA distinction.	10 timed items, then rewrite the missed trap in one line
Syllogism	Daily	40-60 sec	Some does not mean some-not; test each conclusion independently.	10 timed items, then rewrite the missed trap in one line
Statement-assumption/conclusion	Daily	60 sec	Necessary vs possible; use negation test.	10 timed items, then rewrite the missed trap in one line
Direction/distance	3x/week	45-60 sec	Turns are from current facing direction.	10 timed items, then rewrite the missed trap in one line
Blood relation	2x/week	60 sec	Relation direction and gender deduction.	10 timed items, then rewrite the missed trap in one line
Ranking/order/seating	2x/week	75-90 sec	Between excludes endpoints; left/right from subject perspective.	10 timed items, then rewrite the missed trap in one line
Coding-decoding/series/analogy	2x/week	45-60 sec	Verify pattern on all given letters/numbers.	10 timed items, then rewrite the missed trap in one line
Calendar/clock	1x/week	45 sec	Use smaller clock angle; century leap-year rule.	10 timed items, then rewrite the missed trap in one line
Cubes/dice	1x/week	60 sec	Do not assume standard dice unless stated.	10 timed items, then rewrite the missed trap in one line
Reading comprehension central idea	Daily	per passage 5-7 min	Central idea is broad but not extreme.	10 timed items, then rewrite the missed trap in one line
Reading comprehension inference	Daily	60 sec/question	Inference must follow from passage, not outside knowledge.	10 timed items, then rewrite the missed trap in one line
Reading comprehension assumption	Daily	60 sec/question	Assumption supports argument; not restatement/conclusion.	10 timed items, then rewrite the missed trap in one line
Author view/tone	3x/week	60 sec/question	Tone words are moderate unless passage is explicit.	10 timed items, then rewrite the missed trap in one line
Vocabulary-in-context	2x/week	45 sec/question	Meaning must fit sentence, not dictionary first meaning.	10 timed items, then rewrite the missed trap in one line
Data interpretation tables	2x/week	75 sec/question	Check units and bases before calculation.	10 timed items, then rewrite the missed trap in one line
Data sufficiency	2x/week	90 sec/question	Test each statement alone before combining.	10 timed items, then rewrite the missed trap in one line

Final Execution Rules

- GS: Budget/GST/fiscal + RBI corridor + Parliament/bills/committees.
- GS: Climate/Paris/COP/carbon + AI/semiconductor/cyber + Ancient site/text tables.
- GS: Monsoon/cyclone + modern chronology + judiciary/writ/Governor verdict.
- GS: ISRO missions + UN bodies/reports + Indian geography/resources + external sector.
- CSAT: RC daily, number system daily, syllogism daily; all other clusters rotate.

The closest possible model is useful only if you convert it into exact recall. UPSC usually tests the second-order detail: status, exception, authority, location, sequence, or definition boundary. Reading the cluster name is not enough.

Day	GS blocks	CSAT blocks	Test/audit gate
1	Polity Parliament + Executive + Judiciary	Number system + syllogism	60 GS PYQs, 40 CSAT questions
2	Economy fiscal + monetary + inflation/external	Percentage/P&L + RC	One mini GS mock, error log
3	Environment climate + biodiversity + pollution	TSD + DI	Species/convention table from memory
4	Ancient + modern history + art/culture	Ratio + time-work	Chronology drill, 50 PYQs

Day	GS blocks	CSAT blocks	Test/audit gate
5	Geography physical + Indian resources + maps	RC full sectional	Atlas/map test; no new sources
6	S&T AI/space/biotech/defence + IR	Full CSAT mock	GS full mock; mark only evidence-backed attempts
7	Fact sheet, traps, numbers, weak topics only	30-min warmup + formula sheet	Lock. No expansion. Sleep and logistics.

- Do not chase a new PDF unless it maps to an A/A++ subtopic and fixes a known error.
- Do not memorise current affairs without body, location, year, status and PYQ static hook.
- Do not attempt GS questions only because the topic was predicted; apply the trap catalogue first.
- Do not over-attempt CSAT puzzles late in the paper.
- Do not treat mock score as UPSC score; use mocks for error type, time pressure and option traps.

You are ready to chase 140+/100+ only if all five are true:

If any condition fails, the next study block is not more reading. It is error repair.

- Two consecutive GS timed mocks are 135+ with fewer than 12 factual errors.
- One full PYQ paper after 2020 is 125+ without answer-key memory.
- Two consecutive CSAT sectionals/full mocks are 100+.
- Every A++ subtopic above can be revised from one handwritten/typed page.
- Your error log has no repeated trap type in the last two tests.
